EXAMINES ISSUES OF EMOTION AND HABITUATION**

ZULFIKAR MOINUDDIN AHMED  
ZULFIKAR.AHMED@GMAIL.COM

**1. BILL GATES HAD VANDALISED EVERY PART OF MY DEEP INTERIOR**

United Nations Human Rights Considers as well as United States Government considers have both shown that Bill Gates had vandalised all parts of my Deep Interior. White Law disallows people to invaded non-white Blood Meta and Deep Interior. Bill Gates had, with extremely malevolent intent to destroy and harm a non-white man, despite me being Asian-American with Permanent Residency from 1996, more than quarter of a century.

United Nations Human Rights is investigating War Crimes for his malevolent use of power against my Body and destruction of many aspects of my Life, including obstructing \$620 million in legitimate earnings. He represents a far greater threat to world than Russia invading Ukraine, as he has plans for genocide of all non-whites in America, suspension of natural rights and death and destruction to all non-white people of Earth. He said in meta that he considers the white right to kill non-whites as sacrosanct.

The United States Government has not done very much to neutralise this threat to my natural rights at all. I am thus extremely annoyed. I have asked all Nations to Quarantine the United States of America till this natural rights crisis is resolved to everyone's satisfaction. United States Government is obligated by the written expression of US Declaration of Independence Preamble to destroy him for he has violated my sacred natural rights. They have refused to do very much. I do not believe that the United States of America deserves to exist at all so long as it does

not conform to the written foundations of Preamble of United States Declaration of Independence, i.e. that governments exist to secure natural rights of Life, Liberty, and pursuit of Happiness. And so alas, unless United States Government proves its willingness to abide by international and national law, and show this by destroying Bill Gates, what choice will I have but to nix the nation altogether.

## 2. CONFUTATIS MALEDICTIS DA DA

The story is already becoming quite clear. The United States of America lost its way, forgot that purpose of government was to secure natural rights. Then a malevolent charlatan and scoundrel and con man named *Bill Gates* assaulted a good Asian-American man named Zulfikar Moinuddin Ahmed, invaded his Deep Interior with various racial chants. "Whites are superior," he repeated while employing US War Power during peacetime. He employed US Industrial Power to cut into his flesh in meta. The United States Government looked the other way. The nation, it was dying from 2019-2022 finally it was too late. With natural rights being violated by evil malevolent scoundrels without any regard for life of human beings, without any respect for American laws, with hatred for 40 percent of the nation based on savage barbaric bloody lack of concern for Civilised norms that was not even seen among Tarquin in his ravishing strides, among the most horrific of the Ostrogoths who sacked Rome, the murderous barbaric savage hordes of *Bill Gates* descended upon the unsuspecting non-white Americans. The nation was dying, but the United States Government was unwise and did not destroy the criminal, for they were partly in conspiracy with him. And then one day the nation collapsed and disappeared from history.

How tragic is the death of America! What great hopes had been lost with it! Alas, tragic story, a moral fable for all nations indeed.

I am not an expert on Western Classical Music at all, but here is Sir George Soli's 1991 performance [2]. Bill Gates' horrific assault on my life will kill the United States of America, so I better check out various proper Requiem and other music to mark this historical moment in the history of Earth. Other performances I learned about are Zubin Mehta, Herbert Von Karajan, and some others.

Grant them eternal rest, Lord,  
and let perpetual light shine on them.  
You are praised, God, in Zion,  
and homage will be paid to You in  
Jerusalem.  
Hear my prayer, to You all flesh will come.  
Grant them eternal rest, Lord,  
and let perpetual light shine on  
them.  
Lord, have mercy on us.  
Christ, have mercy on us.  
Lord, have mercy on us.  
Day of wrath, day of anger  
will dissolve the world in ashes,  
as foretold by David and the Sibyl.  
Great trembling there will be  
when the Judge descends from heaven  
to examine all things closely.  
The trumpet will send its wondrous sound  
throughout earth's sepulchres  
and gather all before the throne.  
Death and nature will be astounded,  
when all creation rises again,  
to answer the judgement.  
A book will be brought forth,  
in which all will be written,  
by which the world will be judged.  
When the judge takes his place,  
what is hidden will be revealed,  
nothing will remain unavenged.  
What shall a wretch like me say?  
Who shall intercede for me,  
when the just ones need mercy?  
King of tremendous majesty,  
who freely saves those worthy ones,  
save me, source of mercy.  
Lamb of God, who takes away  
the sins of the world,  
grant them eternal rest.  
Lamb of God, who takes away  
the sins of the world,  
Grant them eternal rest.  
That day of tears and mourning,

when from the ashes shall arise,all  
humanity to be judged.  
Spare us by your mercy, Lord,  
gentle Lord Jesus,grant them eternal rest.  
Amen.  
Lord Jesus Christ, King of glory,  
liberate the souls of the faithful,  
departed from the pains of hell  
and from the bottomless pit.  
Deliver them from the lion's mouth,lest  
hell swallow them up,  
lest they fall into darkness.  
Let the standard-bearer, holy Michael,  
bring them into holy light.  
Which was promised to Abraham  
and his descendants.  
Sacrifices and prayers of praise, Lord,  
we offer to You.  
Receive them in behalf of those souls  
we commemorate today.  
And let them, Lord,  
pass from death to life,  
which was promised to Abraham  
and his descendants  
Lamb of God, who takes away  
the sins of the world,  
grant them eternal rest forever.  
Let eternal light shine on them, Lord,  
as with Your saints in eternity,  
because You are merciful.  
Grant them eternal rest, Lord,  
and let perpetual light shine on  
them,as with Your saints in  
eternity,because You are merciful.

The above is not accurate but just some passages of Mozart's Requiem in translation. I am not Christian, and I believe a different set of processes will hold for me after my death. My Life Core will leave earth to the sun, to its center and then exit the solar system, along the way finding my Archangel Body which is composed of magnetic monopoles and whose location is unknown to me. Then I will begin a long intergalactic journey in Archangel body regaining Archangel Consciousness. All inner and outer events of my life from 1973-Death will be transmitted to Archangels in Heaven for analysis and my life on Earth will be scrutinised by Angels in different worlds for various evaluations of hierarchies.

I cannot leave Earth on the edge of Dystopia. Natural Rights World Order is best for me.

You see, I am an Archangel. If I leave this world in clutches of Demons like Bill Gates I will have to hear long boring lectures on elementary matters of Conscience and Responsibility from studious scholars and the boring never-ending seminars in

worlds that are contemplative. It will be a disaster. Angels are Virtue-Oriented and have all manner of standards and laws of behaviour in Primitive Angelic Worlds. I was not on Earth on business at all. I thought, well, it's a Primitive Angelic World. How bad can it be? I was right in America where there was supposed to be not much worry.

Then I found out out about racial genocide plots of a Demon, *Bill Gates*. I am displeased. That's bad. I could look bad. I could be stuck in boring seminars for centuries listening to how to deal with problems in little worlds like this. Do you really think I want that?

### 3. UNITED STATES GOVERNMENT IS NOT APPRECIATING WHAT I AM SAYING

United States Government. I will eliminate United States of America completely from history, erase it from existence altogether unless Bill Gates is destroyed by lethal military *physical force* leading to his physical death. It is the duty and obligation of United States Government to eliminate threats like Bill Gates to 40% of the non-white people of the nation.

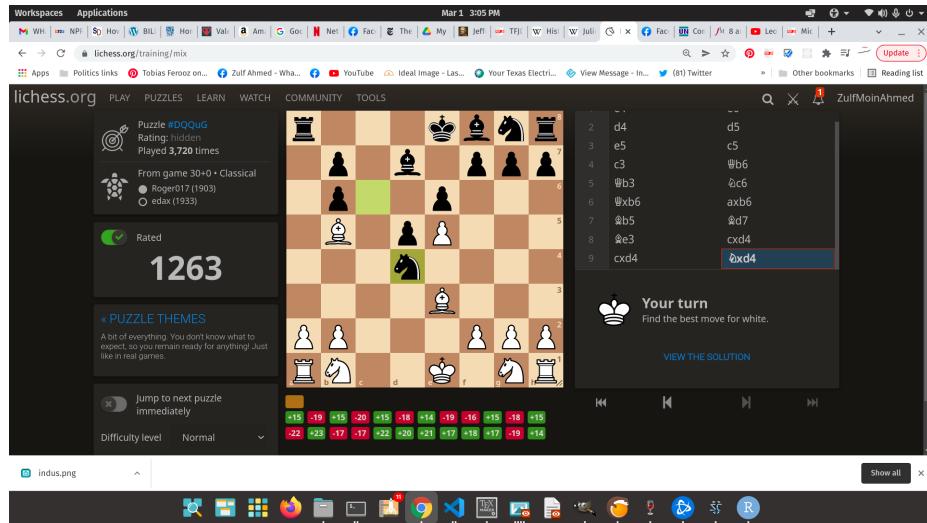

You cannot both have a surviving nation state, i.e. United States of America, and Bill Gates not destroyed physically with physical death, and I am not interested in any rubbish like vigilante decisions. It's not my place or expertise. I don't have any intention, at 50, to go around pretending to the Jason Bourne, jumping around helicopters in far reaches of frontier boondocks. That's your job, United States Government.

So try to understand. I will have no choice but to end the tenure of the United States of America unless you are able to assure me that genocidal racial world order plotters with extremely destructive war crimes against me, will not continue to be a problem in this country. I survived his assaults very badly wounded and will not survive as my Life and Health and physical body was damaged beyond repair. But most other nonwhite people will not be as resilient. I cannot allow you to continue to exist if you insist on keeping him alive, and fail to conform to US Declaration of Independence Preamble and give short shrift to United Nations Human Rights legislation from 1948. That is not an option. Either deal with natural rights emergency represented by Bill Gates for 100 million Americans and billions around the world, or perish as a nation.

Is this clearer? I am an Archangel and I am beholden to my Conscience and will do what must be done.

### 4. ZULF RAISES HIS ILCHESS TO 1260s

I am playing the Global Chessboard against United States Government. I was a bit distracted since my ELO score was so miserable.

I am inching up with some practice.

## 5. HABITUATION REQUIRES MORE THOUGHT

Habituation for all human beings is the most important glue that connects biology—including emotion and personality—to the world of human beings. Therefore a natural science of Man will never occur without deeper understanding of all human habituation. This is the basis for Social Science *as a natural science*. There exist universal laws in collective behaviour of billions of people, and there is a *natural science*. I feel good about Human Emotions and Personality being tractable now, but Habituation is an open frontier. Deep understanding of habituation will provide us with basis for natural science of Man.

This is really the great open issue for a Universal Natural Science of Man. I have optimism for such a thing, unity of all Science of Man.

## 6. STANFORD UNIVERSITY COULD YOU PLEASE GIVE ME TENURE PACKAGE

As far as I understand, Stanford University is willing to offer me a tenure package (and also resolve the \$620 million I am owed from Finance) but has not overcome various blockades of Bill Gates yet. I have located a daily habits questionnaire, and this might be a step towards a unified theory of Human Race [1].

Look, there is some work in this direction, so that's better than nothing. This is the missing gap for a Unified Science of Man beyond Personality the next steps are habituation generally. This is a very difficult conceptual problem. After we know something about habituation, we're in statistical aggregation territory, and then we have a Science of Man.

## 7. I UNDERSTAND STANFORD DOES NOT WANT BILL GATES META

Look, Stanford, you're killing me over here. You don't want to use ordinary email and send me money. You don't want Bill Gates meta in Stanford. What about me? I'm dealing with all sorts of War Crime murder attempts stranded in nowhereville Allen Texas and you're living it up over there. What about me, huh? Why is it always about Stanford, and Harvard and everyone else but Zulf? Why

don't you just ask United States Government to destroy Bill Gates too? Why do I have to save the world from genocidal racial megalomaniacs who want to produce Dystopian horror White Racial World Order with sacrosanct white right to kill non-whites? Why doesn't Stanford do some of the work? Jesus Christ how do you get anything done with this sort of mousey decision-making. You gotta take a stand against what is wrong and what is right. What sort of behaviour is this from Stanford? What will people think if the top universities of America have difficulties with simple issues of right and wrong?

#### 8. BILL GATES' GENIUS

Bill Gates' genius consists in vast amounts of extremely poisonous elements disguised as lemons and fruits raining in my meta, all sorts of black magic sewing meta blocking free breathing, repeating 'whites are superior. whites are superior. whites are superior'. Obviously I will be nixing the United States of America for not totally destroying Bill Gates physically to secure my Life, Liberty, and pursuit of Happiness because I don't believe I will survive this at all. And these moderate whites are so outrageous, they will probably want to forgive *poor Billy Boy sniff sniff* after he murders me because they are filled with so much compassion for him. It's sickening.

It's alright, white moderates. You don't need to forgive extremely malevolent evil hate-filled genocidal white supremacists on my behalf. You really don't need to be doing that. Concentrate on doing what is your right to do. I do not believe in forgiving these sorts of cunts.

#### 9. ON THE QUESTION OF CAN THERE EXIST A NATURAL SCIENCE FOR MAN?

I want to keep repeating a simple point of view. I believe that this point of view will be extremely crucial for all work on a *Natural Science of Man* that has substantial depth and truth to it. The point of view is simple.

The question we want to keep asking is whether a *Natural Science of Human Beings*, or a *Natural Science of Man* exists, whether one can exist, and how ought we organise our efforts in order to have a *substantial and successful* Natural Science of Man.

I want to put forward a very simple set of concepts here. The first concept is that all individual human beings can be studied very broadly as having only two simple parts. The first part is of course that all human beings are organisms encoded by the genome. The second part is novel and original from myself. It is that if we consider every human being from birth to roughly 20 years of age, we can broadly consider him or her as being *determined* by habituation of particular set of sequences of thoughts, actions, emotions. This division is valuable in order to produce a *Natural Science of Man* at all.

I will be emphasizing the absolute centrality of the second part for any successful Natural Science of Man at all. I will boldly state that this (a) does not exist today at all as this is a primitive moment for a Natural Science of Man, and (b) it is the most central conceptual barrier in all fields of social sciences—psychology, sociology, and so on. None of these have yet produced in my view a *satisfactory* natural science yet. And I will put forward the fundamental reason is that the second part that I put forward, that the systematic study of human habituation in the first

two decades of life has not been considered worthy of study in the same way that genetic inheritance has been.

This second part needs to be the basis of any Natural Science of Man. It is not *determined by genetic heritage*. This is the missing link that has not allowed humanity to produce an extremely successful natural science for Man yet.

Given these two parts of knowledge about Nature, we will have a path to statistical science for the entire human race. Today we do not have an adequate natural science for Man. And I believe a coherent unity can be achieved for natural Science of Man by this broad division.

The source for my insight is directly from Aristotle's *Nicomachean Ethics* where Aristotle emphasizes that *Virtue* arises not from nature but from habituation. And this is deep wisdom and truth, not yet absorbed by the contemporary modern world.

The trouble of course is that the phenomena that must be examined for a natural science of Man is vast, much much more vast than for physics and chemistry. And organising fundamental concepts are necessary because otherwise the overwhelming variety naturally is too demanding for individuals to grasp.

I will put forward the idea that habituation is the right concept that will allow us to organise all the phenomena in accordance with truth of Nature and will produce success in the centuries to come for a Natural Science of Man.

For some years I have been interested in Emotions and Personality. But it is clear to me now that *Habituation* must be the next step towards a natural science of Man. With clear understanding of all human habituation on Earth in good order, we will be able to produce a natural science for Man, one that is sharp and accurate and precise.

What exists now for Social Science is quite inadequate.

## 10. THOUGHTS ABOUT DEEP DIFFICULTIES OF SCIENCE OF MAN

Unlike physics, a natural Science of Man is beset with extraordinary difficulties. These stem from two factors: (a) sheer complexity of the phenomena because human beings are born with genetic code of six billion DNA letter pairs of which much is still mysterious, and (b) the enormous complexity of all human patterns of emotions, thought, action that combine to produce the whole 'human race system'. Where here are electrons that are exchangeable and with uniform charge? In physics these issues were sharpened for three centuries. In this arena of natural science of Man, we are overwhelmed by phenomena without consensus on the categorisation that will surely lead to quantitative effective models.

## 11. REINFORCEMENT LEARNING IS TOO ABSTRACT TO WORK

I just looked at the Gershman-Daw 2017 paper on Reinforcement Learning [7]. Now this is a good idea, Reinforcement Learning, but it's too abstract to produce a natural science of Man. It's good that people have worked on this though.

The right way to see things is that human genetic adaptations are historically deep, so  $G_c$ , the genetic code in common, 99.9% of everyone's genome, contains a lot of adaptations that we do not understand. The reinforcement learning paradigm is too abstract as it attempts to produce behaviour with assumptions that do not specialise enough to match unknown amount of genetic constraints. In other words,

reinforcement learning models will allow to many actions. This is not good enough. We need something that is closer to truth.

You have (a) vast amount of actually possible human habits and actions and behaviour, and (b) huge number of genetic constraints, and you have to play a game of finding theories that will be broad enough to cover (a) and narrow enough to comply with (b).

This is schematic, but this is necessary. Otherwise it's too wrong failing both (a) and (b).

## 12. JOHN DEWEY'S 1922 HUMAN NATURE AND CONDUCT

Of course it is my immortal genius to have empirically shown the universal distribution of moral values across the globe. I, and I alone, in the entire history of human race, have given man truth regarding how not only are human moral nature universal in its behaviour, but have singlehandedly cast aside all of Western Philosophical thought – Immanuel Kant, Friedrich Nietzsche, and all Theologians of Christian and Muslim stripes regarding human nature's moral aspects. This is not a good breakthrough; this is one of the greatest genius transformative breakthroughs regarding human nature that had ever been discovered in the world's history. And I, Zulfikar Moinuddin Ahmed, am an immortal genius for this discovery without any doubts in my mind.

John Dewey wrote about habit in 1922, and I am interested, because I believe that Habit and Habituation are far more central to a natural science of Man than ever understood before, as this is the layer beyond Emotion and Personality that leads to Character, and then to the statistical behaviour of the macroscopic statistical human race system.

Soon Ms. Jasmine Sackey will come to pick me up to visit the psychiatrist. Bill Gates I can hear clearly because he has invaded and occupied my meta while the United States Government has refused to destroy the War Criminal to the peril of end of the United States of America.

## 13. HABITUATION IS A VERY VERY DEEP AND SUBSTANTIAL ISSUE

Superficial popular culture is concerned with good habits, bad habits, obsessive-compulsive eating disorders, habits of exercising, these sorts of things. They are superficial things that truly underestimate the full scope of how central and important habituation is. Habituation, broadly, turns our genetic code into who we become, as full human beings. It is roughly the complement of what is not already encoded in the genetic heritage. We are all strongly shaped by habituation. We transform from the baby to the man or the woman by habituation. So the place of habituation is more central than frivolous and small concerns allow us to appreciate. Habituation is the second great regularity that allows a possibility of science of Man, the first being Human Nature, which is an expression of  $G_c$ , the genetic code in common, 99.9% of every human being's total genome, fixed constant letters independent of individual across all ethnicities and languages and cultures.

These two regularities I mark as the central rational justifications for why there exists a total universal natural science of Man, one that we do not know yet, one that will transform the entire human race and drive it forward, improve and advance us to a higher and better state. Enlightenment has these benefits. I want to proclaim that Habituation will resolve a Science of Man, that I, Zulfikar Moinuddin Ahmed,

have very little doubt that we, the Human Race, shall have sharp understanding of Habituation and a positive natural science of Man, and as a result we will flourish and our well-being across the globe will benefit.
